DISPENSARY TO TEST AT WAIMANO HOME

HANG's 154th USAF Dispensary, in line with its goal for wider involvement in community affairs, has announced plans for a mass TB and Flu immunization program to be held Saturday, 21 October at the Waimano Training Center.

The State Institution, in Waipahu, cares for severely mentally and physically handicapped persons who have little chance of adapting to the routine of a life outside the facility.

According to Air Guard health service administrator Captain James Hardin, about 20 volunteers, or two-thirds of the entire unit will be involved in the program. After being bused to Waimano, the R.N.s and medical corpsmen will work in five teams of three. The Guardsmen hope to test all of the 700 patients at the center in one day.

This Saturday's project follows earlier immunization programs by the Dispensary, among them Operation Swallow, an early introduction to oral vaccine in Hawaii, and the
